

Thamizharasu.M

Full-Stack Developer — MERN Stack

Puducherry 605105, India • +91 94881 86744 • roygraves606@gmail.com
[linkedin.com/in/thamizh606](#) • [github.com/RoyGraves606](#)

PROFESSIONAL SUMMARY

Self-taught Full-Stack Developer skilled in React.js, Next.js, Node.js, Express.js, MongoDB, and TypeScript. Built 5 independent full-stack projects covering web applications, e-commerce, and booking systems, working across REST API design, database architecture, AI integration, authentication, and security. Comfortable owning a project end-to-end and learning new technologies as needed.

PROJECTS

ZerroLabs - AI-Powered Gym Management SaaS Platform | Full Stack Developer

Next.js • React • TypeScript • MongoDB • Razorpay • Google Gemini AI

[Live Demo](#) • [GitHub](#)

- Architected a multi-tenant Gym Management SaaS platform from scratch, enabling multiple independent gyms to run on a single, isolated codebase.
- Engineered AI-powered Admin and Member Assistants (Google Gemini API) and automated attendance via QR code check-in, membership, subscriptions, and Razorpay payments.
- Delivered dashboard analytics and reporting, and secured the platform end-to-end with JWT authentication and Role-Based Access Control (RBAC).

Zerro Gifts and Events - AI E-commerce Platform | Full Stack Developer

React • TypeScript • Vite • Node.js • Express.js • MongoDB Atlas

[Live Demo](#) • [Frontend](#) • [Backend](#)

- Engineered a full-stack, AI-powered e-commerce platform with an AI recommendation engine that personalizes product suggestions via tool calling.
- Designed an AI-assisted event booking workflow and an admin dashboard for products, bookings, and orders, with Razorpay payment integration.
- Hardened the REST API layer with RBAC, CSRF protection, CORS policies, rate limiting, and input validation.

Doctor Appointment Booking Platform | Full Stack Developer

React • Vite • Node.js • Express.js • MongoDB • Socket.io • Google Gemini AI

[GitHub](#)

- Built an end-to-end clinic appointment booking platform with an AI patient assistant (Google Gemini) that handles patient questions automatically.
- Enabled real-time appointment updates with Socket.io and automated appointment expiry with scheduled Cron Jobs.
- Secured the platform with JWT authentication, CORS policies, security headers, and rate limiting.

Black Swan - Web Development Agency Website | Full Stack Developer

React • TypeScript

[Live Demo](#) • [GitHub](#)

- Designed and built a modern, responsive agency landing page with animated branding and an integrated AI assistant to engage prospective clients.
- Optimized front-end performance and load speed to improve user experience and reduce bounce rate.

Perfect Water Solutions - Business Website | Full Stack Developer (Freelance Client Project)

Next.js

[Live Site](#)

- Designed and delivered an SEO-optimized business landing page for a real freelance client, driving lead generation through a fast, responsive Next.js build.

EDUCATION

Bachelor of Business Administration (B.B.A.)

Rajiv Gandhi Arts and Science College, Puducherry, India

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, HTML, CSS, Python (Basic), Dart
Frontend / Backend	React.js, Next.js, Vite, Tailwind CSS, Node.js, Express.js, REST API Design
Databases	MongoDB, Mongoose, MySQL, PostgreSQL, SQLite
Artificial Intelligence	Google Gemini API, AI Integration, Prompt Engineering, AI-Assisted Development
Security	JWT, Role-Based Access Control (RBAC), CORS, CSRF Protection, Rate Limiting, Input Validation
Tools & Platforms	Git, GitHub, Postman, VS Code, Vercel, Razorpay, Redis, BullMQ, Electron (Basic)
Concepts	SaaS Architecture, Multi-Tenant Systems, System Design, Software Architecture, Problem Solving, Self-Learning
